## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 22 June 2009 has been entered.

### ***Response to Amendment***

2. Claim 1 has been amended. Claims 15-20 are newly added. Claims 3-10 and 14 have been cancelled by the Applicant. Claims 1, 2, 11-13 and 15-20 are currently pending.

### ***Response to Arguments***

3. Applicant's arguments, see pages 5-8, filed 22 June 2009, with respect to the pending claims have been fully considered and are persuasive. The rejection of the claims has been withdrawn in view of the amendments made to the claims.

### ***Election/Restrictions***

4. Claims 1, 2, 11-13 and 15-20 are allowable. Claims 11-13, previously withdrawn from consideration as a result of a restriction requirement, require all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement between species Group I and II, as set forth in the Office action mailed on 21 October 2008, is hereby withdrawn** and claims 11-13 are

hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

***Allowable Subject Matter***

5. Claims 1, 2, 11-13 and 15-20 are allowed.
6. The following is an examiner's statement of reasons for allowance: the primary reason for the allowance of Claims 1, 2, 11-13 and 15-20 is the Claim 1 limitation for a flashlight device including a reflecting mirror having a pair of first reflecting surfaces disposed apart from and generally facially opposing one another and a second reflecting surface interconnecting the pair of first reflecting surfaces to form a generally U-shaped configuration, the second reflecting surface as viewed in cross-section having an upper front side cylindrical surface section extending arcuately at a constant radius of curvature about a center point, a lower front side cylindrical surface section extending arcuately at the constant radius of curvature about the center point, a rear side cylindrical surface section extending arcuately at the constant radius of curvature about the center point, an upper recessed surface section interconnecting the upper front side cylindrical surface section and the rear side cylindrical surface section and projecting

away from the center point and a lower recessed surface section interconnecting the lower front side cylindrical surface section and the rear side cylindrical surface section and projecting away from the center point, in combination with all other claim limitations in total.

The prior art of record neither teaches nor suggests this combination of structural limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
